GENERAL RECOMMENDATIONS

SURE Grow-N/S is compatible with 28% or 32% nitrogen (acts as a stabilizing agent). It is easily and totally soluble and blends readily in water or liquid UAN solutions. Optimum rate of application will vary, depending on soil pH and organic matter content. For best results, follow soil and or plant analysis recommendations.

Preplant - Apply 1-5 gals p/Acre of SURE Grow-N/S with sufficient water or with fertilizer solution in broadcast, dribble, or band application. Incorporate 2 to 4 inches for best results.

Side Dress - Apply 1-5 gals p/Acre of SURE Grow-N/S between rows with sufficient water or with fertilizer solution in dribble or band application. Incorporate 2 to 4 inches for best results.

Top Dress - Apply 1-2 gals p/Acre of SURE Grow-N/S with sufficient water or fertilizer solution for adequate and even coverage.

Foliar - Apply 1-2 qts p/Acre of SURE Grow-N/S with sufficient water or fertilizer solution for adequate and even coverage. Use equipment to give uniform coverage with 30 to 90 PSI for best results.

WARNING: Keep out of reach of children.
Dispose of container in accordance with local, state, & federal regulations.

BLENDING INSTRUCTIONS

1. Add correct amount of SURE Grow-N/S while adding water or other liquid fertilizer solution to spray tank.
2. Agitate adequately to blend well.
3. SURE Grow-N/S is compatible with most fertilizers. If in doubt, a jar test is recommended before tank blending to determine compatibility.

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty, nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.

Packed 2 x 2.5 Gals.

SURE Grow-N/Sulfur provides sulfur, the 4th major nutrient plants need.

- 💧 essential for chlorophyll formation and photosynthesis
- 💧 Inhibits nitrification and reduces urease
- 💧 increases protein content in grasses and grain
- 💧 essential for the conversion of nitrogen into amino acids
- 💧 helps develop enzymes and vitamins
- 💧 promotes nodulation for legumes
- 💧 stabilizes nitrogen for greater crop uptake
- 💧 helps replenish sulfur deficient fields
- 💧 important for soil micro-organisms to build their body protein
- 💧 is a clean liquid; blends readily with most other liquid fertilizers

SURE Grow-N/Sulfur, Helps Optimize Crops. (Note: Grower Comments)

- 💧 Increased yields *“After first cutting, I applied SURE Grow-N/S and Crop Micro to my alfalfa. My second cutting yielded **9.75 tons or 13 big bales more** than my neighbor’s. All together he got three cuttings, and I got five with good regrowth for winter.”*
- 💧 Increased test weight *“Our oats yielded **100+ Bu p/A** with 40 lbs. test weight.” (SURE Starter, Grow-N, Grow-N/Sulfur, & Z/Micro.)*
